EXPERIENCE

BLOCKCHAIN AND CRYPTO (Intern), FUTURE INTERN

Feb 2025 – Mar 2025

- Beginner-level Blockchain and Crypto Intern with basic knowledge of blockchain technology, cryptocurrencies, and smart contracts. Familiar with Ethereum, Solidity, and how decentralized systems work. Completed small projects and training to understand how blockchain can be used in real-world applications. Interested in gaining more experience by working on practical blockchain solutions in a professional setting.

PROJECTS

Blockchain Based Fraud Detection System In Banking Sector

FD Pay (DApp)

- The Fraud Detection System Using Blockchain is a decentralized application (DApp) designed to revolutionize fraud detection and prevention in the banking sector. By leveraging the power of blockchain technology, this system ensures secure, transparent, and immutable transaction records, fostering trust and reliability across financial networks.
- Tools Used: Remix IDE, VS Code, Metamask.

Personal Portfolio

Yash.Portfolio

- Designed and developed a responsive portfolio to showcase projects and skills. Implemented smooth navigation and user-friendly user interface. Technologies Used: HTML, CSS, JavaScript.
- Tools Used: VS Code.
